# A PERFECT DAY TO FLY

In a lonely spot near the sea, a boy flies a kite made by his father. It's windy and the kite has become entangled in the vegetation. The boy needs an adult to help him keep it flying. Together, lost in the middle of nature, they will launch into the narration of a tale with myriad episodes. A story featuring an ever-hungry giant given its voice by the father, and with whom the young boy will have a long conversation.
